PP-19-01 Vityaz

٢٦ آب, ٢٠٢٢ ٠٣:٤٤ ص

INSTALLATION GUIDE:
1) Go to "\mods\update\x64\dlcpacks" and drop the "vityaz" folder there.
2) Go to "\mods\update\update.rpf\common\data"
3) Right click "dlclist.xml" and click edit
4) Paste the following below "";
dlcpacks:\vityaz\
5) That's it, you're set. When loading into GTA, to get your weapon open your menu or native trainer and get your weapon wherever you can input the weapon name, type in "vityaz". Then presto! it's yours.
5a) If you want to have a custom weapon icon go open the "optional pickups" folder
